

NGUYEN KHANH HOA

Automation Tester Intern | Software QA

Phone: 0923692870

Email: nguyenkhanhhoa1592@outlook.com

LinkedIn: linkedin.com/in/nguyenkhanhhoa02

Location: Ho Chi Minh City

Gender: Female

PROFESSIONAL SUMMARY

Software Engineering graduate with hands-on experience in both manual testing and automation testing using **Java**, **Selenium WebDriver**, and **TestNG**.

Experienced in requirement analysis, test case design, defect reporting, regression testing, and maintaining automation scripts for web applications. Strong understanding of software testing lifecycle, source control, and Agile collaboration.

I deeply appreciate every opportunity to grow in a professional environment, learn from experienced engineers, contribute to software quality, and continuously develop my career in software testing and automation engineering.

EDUCATION

Ton Duc Thang University

Bachelor of Software Engineering | 2020 – 2024

GPA: 7.61 / 10

TECHNICAL SKILLS

Programming: Java, JavaScript, C

Automation Testing: Selenium WebDriver, TestNG, POM, Playwright

Testing Types: Functional, Regression, Smoke, Integration

Tools: Git, GitHub, Jira, Postman, Figma

Database: SQL Server, MySQL, PostgreSQL

Methodologies: Agile, Scrum, SDLC, STLC

WORK EXPERIENCE

AGEST Vietnam — QA Intern | Automation Tester Intern

10/2025 – 04/2026

- Understood business requirements and converted them into test scenarios and test cases.
- Developed and maintained Selenium WebDriver automation scripts using Java.
- Executed manual and automated test cases for web applications.
- Logged and tracked defects during testing cycles.
- Maintained test documentation and regression checklists.
- Used Git for version control and collaboration.

Nam Phuong Digital Technology — Frontend Developer

08/2024 – 02/2025

- Developed UI using ReactJS.
- Integrated backend APIs and validated workflows.
- Improved understanding of system behavior and user experience.

PROJECTS

Safe Railway — Automation Testing Project

Role: Automation Tester | Team Size: 1 | 01/2026 – 02/2026

Description

Railway booking web application for tickets, reservations, and payments.

Tech Stack

Java, Selenium WebDriver, TestNG, Git

Responsibilities

- Built automation test scripts using Selenium WebDriver.
- Applied Page Object Model for maintainability.
- Executed regression testing for booking flows.
- Reported defects with reproduction steps.

Clothes Shop — Manual Testing Project

Role: Manual Tester | Team Size: 7 | 12/2025 – 01/2026

Description

E-commerce system for shopping, cart, checkout, and order management.

Tech Stack

Excel, Google Sheets, Word

Responsibilities

- Designed test cases and test checklist.
- Executed manual and regression testing.
- Logged and verified bug fixes.

CERTIFICATIONS

- Aptis ESOL B1 English — 03/2024
- Agile Development & Scrum Framework — 10/2023
