

NGUYEN KHANH HOA

Automation Tester | QA Engineer

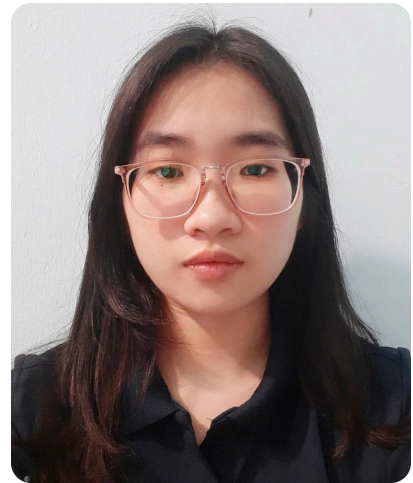

Phone: 0923692870

Email: nguyengkhanhhoa1592@outlook.com

LinkedIn: linkedin.com/in/nguyengkhanhhoa02

Location: Tan Binh, Ho Chi Minh City

Gender: Female

PROFESSIONAL SUMMARY

Automation Tester with **1+ year of professional experience** in software quality assurance, specializing in **Selenium WebDriver, TestNG, Playwright, and API testing** using Java and JavaScript.

Experienced in designing automation frameworks, writing and maintaining test scripts, analyzing test execution results, reporting defects, and collaborating with developers to reproduce and resolve software issues in Agile environments.

Hands-on experience with Git, Postman, SQL validation, and practical exposure to CI/CD workflows, BDD practices, and performance testing fundamentals.

Currently seeking an opportunity at **Amaris Consulting** to contribute to scalable test automation solutions, improve test coverage, and continue growing in a global engineering environment.

EDUCATION

Ton Duc Thang University

Bachelor of Software Engineering | 2020 – 2024 | GPA: 7.61 / 10

TECHNICAL SKILLS

Programming: Java, JavaScript, Python (Basic), C

Automation: Selenium WebDriver, TestNG, Playwright, Page Object Model

API Testing: Postman, REST API Validation

Performance Testing: JMeter (Basic Knowledge)

DevOps: Git, GitHub, Jenkins (Basic), CI/CD Concepts

Containerization: Docker (Basic Knowledge)

WORK EXPERIENCE

AGEST Vietnam — Software Tester

03/2025 – Present

- Designed and maintained automation test frameworks using Selenium WebDriver, TestNG, and Page Object Model.
- Developed and executed automated test scripts for web applications and API validations.
- Analyzed test execution results, identified software defects, and reported bugs with detailed reproduction steps.
- Collaborated closely with developers to reproduce issues and verify defect resolutions.
- Optimized automation test suites to improve execution efficiency and test coverage.
- Managed automation source code using Git and participated in test code reviews.
- Participated in sprint planning, daily standups, sprint reviews, and retrospective meetings.
- Supported CI/CD validation activities and release verification testing.

Nam Phuong Digital Technology — Frontend Developer

08/2024 – 02/2025

- Developed and maintained ReactJS user interfaces integrated with backend APIs.
- Improved understanding of software architecture, debugging, and system behaviors.
- Worked with developers to identify UI defects and improve application stability.

PROJECTS

Safe Railway — Web Application Testing

Role: Automation Tester | Team Size: 1 | 01/2026 – 02/2026

Project Description

A web-based railway ticket booking system that allows users to search train schedules, book tickets, manage reservations, and process payments.

Tech Stack

Java, Selenium WebDriver, TestNG, Postman, SQL, Git

Responsibilities

- Designed and implemented automation framework using Selenium WebDriver, Java, and TestNG.
- Automated booking, payment, and reservation workflows to improve regression coverage.

- Applied Page Object Model to improve framework scalability and maintainability.
- Integrated Git version control for automation collaboration.
- Performed API validation and database verification for critical business flows.

Clothes Shop — E-Commerce Website

Role: Manual Tester | Team Size: 7 | 12/2025 – 01/2026

Project Description

A web-based clothing e-commerce system that allows users to browse products, add items to cart, and complete the checkout process.

Tech Stack

Excel, Google Sheets, Word, Google Docs

Responsibilities

- Analyzed requirements and created User Stories and Acceptance Criteria.
- Designed Test Matrix, Test Checklist, and detailed Test Cases.
- Executed manual testing for browsing, cart, and checkout features.
- Performed Ad-hoc Testing to improve coverage.
- Logged and managed software defects with detailed reproduction steps.
- Conducted Bug Regression Testing to verify defect fixes.

CERTIFICATIONS

- Aptis ESOL English B1 — 03/2024
- Agile Development & Scrum Framework — 10/2023
