

# NGUYEN KHANH HOA

## QA Engineer | Automation Tester

**Phone:** 0923692870

**Email:** [nguyenkhanhhoa1592@outlook.com](mailto:nguyenkhanhhoa1592@outlook.com)

**LinkedIn:** [linkedin.com/in/nguyenkhanhhoa02](https://www.linkedin.com/in/nguyenkhanhhoa02)

**Location:** Ho Chi Minh City

**Gender:** Female

---

## PROFESSIONAL SUMMARY

QA Engineer with **1+ year of professional testing experience** in web applications and transaction-heavy systems.

Experienced in testing critical user journeys including authentication, booking, payment processing, reservation flows, user permissions, and transaction validations using both manual and automated testing approaches.

Hands-on experience with **Selenium WebDriver, TestNG, Playwright, Postman, SQL, and Git**, with strong attention to detail in defect analysis, regression testing, release validation, and product quality assurance.

Seeking an opportunity to contribute to a fintech product where I can help build reliable QA foundations for critical workflows such as onboarding, KYC, transactions, and portfolio experiences.

---

## EDUCATION

### Ton Duc Thang University

Bachelor of Software Engineering | 2020 – 2024 | GPA: 7.61 / 10

---

## TECHNICAL SKILLS

**Automation Testing:** Selenium WebDriver, TestNG, Playwright, POM  
**API Testing:** Postman, REST API Validation  
**Testing Types:** Functional, Regression, Integration, UAT

**Tools:** Jira, Git, GitHub  
**Database:** SQL Server, MySQL, PostgreSQL  
**Methodologies:** Agile, Scrum, SDLC, STLC

## WORK EXPERIENCE

---

### AGEST Vietnam — Software Tester

03/2025 – Present

- Owned QA execution for core user workflows including authentication, profile management, business transactions, and permission validation.
- Designed test plans, test cases, regression suites, and release validation checklists.
- Developed automation scripts using Selenium WebDriver, Java, and TestNG.
- Investigated failed test results, identified defects, and created reproducible bug reports.
- Worked closely with developers and product teams to clarify issues and verify fixes.
- Improved test coverage for critical user journeys and reduced regression risks before releases.

### Nam Phuong Digital Technology — Frontend Developer

08/2024 – 02/2025

- Developed frontend features using ReactJS.
- Collaborated with backend developers to validate API integrations.
- Improved understanding of user behavior, UI workflows, and product thinking.

## PROJECTS

---

### Safe Railway — Transaction Workflow Testing

Role: Automation Tester | Team Size: 1 | 01/2026 – 02/2026

#### Project Description

A railway booking platform supporting ticket purchases, reservation management, user authentication, and payment processing.

#### Tech Stack

Java, Selenium WebDriver, TestNG, Postman, SQL, Git

#### Responsibilities

- Automated transaction-critical workflows including booking, payment, and reservation updates.
- Validated API responses and database records for transaction consistency.
- Executed regression testing for release confidence.
- Reported defects with detailed reproduction steps and root cause observations.

## **Clothes Shop — E-Commerce Workflow Testing**

Role: Manual Tester | Team Size: 7 | 12/2025 – 01/2026

### **Project Description**

E-commerce platform supporting user registration, product browsing, cart management, checkout, and order tracking.

### **Tech Stack**

Excel, Google Sheets, Word, Google Docs

### **Responsibilities**

- Designed detailed test cases for checkout and transaction workflows.
- Performed exploratory and regression testing.
- Verified balance calculations, order status updates, and user permissions.
- Reported defects and validated fixes before releases.

## **CERTIFICATIONS**
