

NGUYEN KHANH HOA

SOFTWARE TESTER (MANUAL & AUTOMATION)

 Tan Binh, Ho Chi Minh City  0702505072  nguyengkhanhhoa6235@gmail.com

 [linkedin.com/in/nguyengkhanhhoa02](https://www.linkedin.com/in/nguyengkhanhhoa02)

PROFESSIONAL SUMMARY

Detail-oriented Software Tester with a solid foundation in Software Engineering. Experienced in full-cycle Manual Testing and implementing Automation frameworks using Selenium WebDriver (Java). Proven ability to bridge the gap between development and quality assurance to ensure high-stability products in fast-paced environments.

SKILLS & EXPERTISE

Testing Methodologies	Requirement analysis, Test Plan/Report, Test Case design, Regression & Ad-hoc testing.
Automation Tools	Selenium WebDriver, TestNG, Page Object Model (POM), Playwright.
Technical Stack	Java, JavaScript, ReactJS, SQL Server, PostgreSQL, MySQL.
Software & Platform	Git, GitHub, Postman (API Testing), Jira, Figma.

WORK EXPERIENCE

AGEST VIETNAM 01/2026 - Present

Software Tester Intern

- Analyze functional specifications to design comprehensive test cases for web applications.
- Execute manual test suites and perform deep regression testing to ensure system stability post-deployment.
- Develop and maintain automation test scripts using Selenium WebDriver (Java) following POM architecture.
- Collaborate closely with developers to investigate root causes of defects and verify hotfixes.

NAM PHUONG DIGITAL TECHNOLOGY 08/2024 - 02/2025

Frontend Developer (ReactJS)

- Developed responsive UIs with ReactJS, gaining deep insights into system behavior and frontend-backend integration.
- Identified and resolved cross-browser compatibility issues, enhancing overall user experience.

KEY PROJECTS

Safe Railway - Ticket Booking System 01/2026 - 02/2026

Role: Automation Tester | Team Size: 5

- Built an automation framework from scratch using Java, Selenium, and TestNG.
- Automated critical flows: Train search, booking, and payment processing.
- Managed version control via Git to maintain clean and modular test code.

FinTech Core Banking (Mock Project)

Recent

Role: Manual & API Tester | Team Size: 5

- Performed End-to-End testing for transaction processing and account management modules.
- Utilized Postman for API validation (Status codes, JSON schema, and Data integrity).
- Documented detailed Bug Reports and managed defect lifecycle in Jira.

EDUCATION & CERTIFICATIONS

TON DUC THANG UNIVERSITY

2020 - 2024

Bachelor of Software Engineering | GPA: 7.61/10

- **Aptis ESOL B1** (English Proficiency)
 - **Agile Development & Scrum Framework**
-
