

NGUYEN KHANH HOA

Automation Tester | Software QA Engineer

Phone: 0923692870

Email: nguyenkhanhhoa1592@outlook.com

LinkedIn: www.linkedin.com/in/nguyenkhanhhoa02

Location: Tan Binh District, Ho Chi Minh City

Gender: Female

PROFESSIONAL SUMMARY

Final-year Software Engineering graduate with hands-on experience in **Manual Testing** and **Automation Testing** using **Selenium WebDriver (Java)**, TestNG, and Page Object Model (POM). Strong understanding of test case design, test execution, defect tracking, regression testing, and automation framework maintenance through academic projects and professional testing experience. Experienced in supporting both manual and automated testing activities, preparing test documentation, and collaborating with developers to ensure software quality. Possess solid Java programming skills, basic source control knowledge with Git, and familiarity with Agile working environments. Seeking an Automation Tester Intern position at Bosch to contribute to automated testing, framework maintenance, and continuous software quality improvement while further developing professional QA expertise.

EDUCATION

Ton Duc Thang University

Software Engineering | 2020 – 2024 | GPA: 7.61 / 10

TECHNICAL SKILLS

Programming: Java, JavaScript, Python, C

Process: Agile, Scrum, Requirement Analysis, Test Reports

Manual Testing: Test Case Design, Test Execution, Regression Testing, Bug Reporting

Tools: Git, GitHub, Postman, Jira, Figma

Automation Testing: Selenium WebDriver, TestNG, POM, Playwright **Database:** SQL Server, PostgreSQL, MySQL

WORK EXPERIENCE

AGEST Vietnam - Software Tester

10/2025 – 04/2026

- Analyzed business requirements and designed test cases based on functional specifications.
- Executed manual and regression testing for web applications before release.
- Developed automation test scripts using Selenium WebDriver (Java) and TestNG.
- Applied Page Object Model (POM) to build and maintain structured automation testing frameworks.
- Reported, tracked, and verified defects throughout the defect lifecycle.
- Collaborated with developers to clarify issues and validate bug fixes efficiently.
- Managed testing activities using internal testing tools and maintained test execution reports.

Nam Phuong Digital Technology - Frontend Developer (ReactJS)

08/2024 – 08/2025

- Developed web interfaces using ReactJS and integrated backend APIs.
- Improved understanding of software development lifecycle and system behaviors.
- Resolved UI issues and improved cross-browser compatibility and system stability.

PROJECTS

Safe Railway — Web Application Testing

Role: Automation Tester | Duration: 01/2026 – 02/2026

Description: A web-based railway ticket booking system that allows users to search train schedules, book tickets, manage reservations, and process payments.

Tech Stack: Java, Selenium WebDriver, TestNG, IntelliJ, Git

Responsibilities:

- Developed and executed automation test scripts using Selenium WebDriver with Java.
- Applied Page Object Model (POM) to improve maintainability and test coverage.
- Performed manual validation and automation regression testing for core booking flows.
- Tracked and reported defects while maintaining structured test execution results.
- Used Git for source control and test script version management.

Clothes Shop — E-Commerce Website

Role: Manual Tester | Duration: 12/2025 – 01/2026

Description: A web-based clothing e-commerce system that allows users to browse products, add items to cart, and complete the checkout process.

Tech Stack: Excel, Google Sheets, Word, Google Docs.

Responsibilities:

- Prepared test documentation including User Stories, Acceptance Criteria, Test Matrix, and Test Cases.
- Executed manual test cases for product browsing, cart management, and checkout flows.
- Performed Ad-hoc Testing and Bug Regression Testing to improve product quality.
- Managed defect reports with clear reproduction steps and bug tracking updates.

CERTIFICATIONS

- Aptis ESOL B1 - 03/2024
- Agile Development & Scrum Framework - 10/2023
